

# LED Lighting Program

## QUALIFIED SERVICE PROVIDERS

March 30, 2010

Service Providers on this list have met the eligibility requirements and received training to participate in the LED Lighting Program. *Inclusion on this list, however, does not represent endorsement by Oncor or the Program of any Service Provider's products or services.*

There are two categories of Service Providers, each with different authorized roles and eligibility requirements:

- **Installation Service Providers** may perform all Project-related services, including installation. *All Projects must register an approved Installation Service Provider.*
- **Consultation Service Providers** may provide limited Project-related services—excluding installation—such as recommending lighting measures, designing installations, etc. *Customers choose to engage a Consultation Service Provider at their own discretion.*

### About Oncor

Oncor is a regulated electric distribution and transmission business that uses superior asset management skills to provide reliable electricity delivery to consumers. Oncor operates the largest distribution and transmission system in Texas, providing power to 3 million electric delivery points over more than 102,000 miles of distribution and 14,000 miles of transmission lines. While Oncor is owned by a limited number of investors (including majority owner, Energy Future Holdings Corp.), Oncor is managed by its Board of Directors, which is comprised of a majority of independent directors.

Take A Load Off, Texas<sup>®</sup> is provided by Oncor Electric Delivery Company LLC as part of the company's commitment to reduce energy consumption and demand. Ecos implements the LED Lighting Program as an independent contractor.
